Mobile Media Concepts, Inc. Now Offers Coverage in the San Francisco Bay Area With New Partnership

Sacramento, CA, 9/11/2008 – Mobile Media Concepts, Inc., the Sacramento based mobile advertising company, signed on a bay area based logistics company with routes throughout the city of San Francisco and the surrounding areas. This fleet partner will provide MMC with 8 trucks to utilize for their clients looking to advertise in the bay area. “Outdoor advertising in San Francisco is extremely effective due to the dense population.” explains Executive Vice President Patrick Kirk. “However, the price point for outdoor billboards in San Francisco is very high leaving very few options for most companies. This partnership allows MMC to offer something new and fresh to the bay area for a great outdoor marketing solution.” This is the third Fleet Partner for MMC since they started up in the Sacramento area in the Fall of 2007.

For additional information on this new partnership contact Patrick Kirk or visit our website at <http://www.mobilemediaconcepts.net>.

About Mobile Media Concepts, Inc. – Mobile Media Concepts, Inc. (MMC) is a mobile advertising company with coverage throughout Northern California and the Bay Area. MMC’s approach and strategic partnerships allow them to utilize existing trucks that are already on the road to act as mobile billboards for their clients. MMC provides space on both sides and the rear panel of each truck for their clients’ advertising. MMC’s target clients range from large corporations/franchises and events to small local businesses that are looking for high impact advertising at a reasonable cost.
